

**PRODUCT BRIEF**

**MBS-EWC-02 External Weatherproof Case**

**May 2007**

The **MBS-EWC-02** is an external weatherproof case for the range of Digilant standalone surveillance cameras. It enables the Digilant to operate in harsh, dusty outdoor environments such as mines, farms, forests, beaches etc.

The case is manufactured out of high quality polycarbonate for maximum UV resistance, and is IP65 rated.

The camera circuit board is held in position by a base plate and a top clip on the front case. This enables easy replacement and removal of the camera to access the memory card.

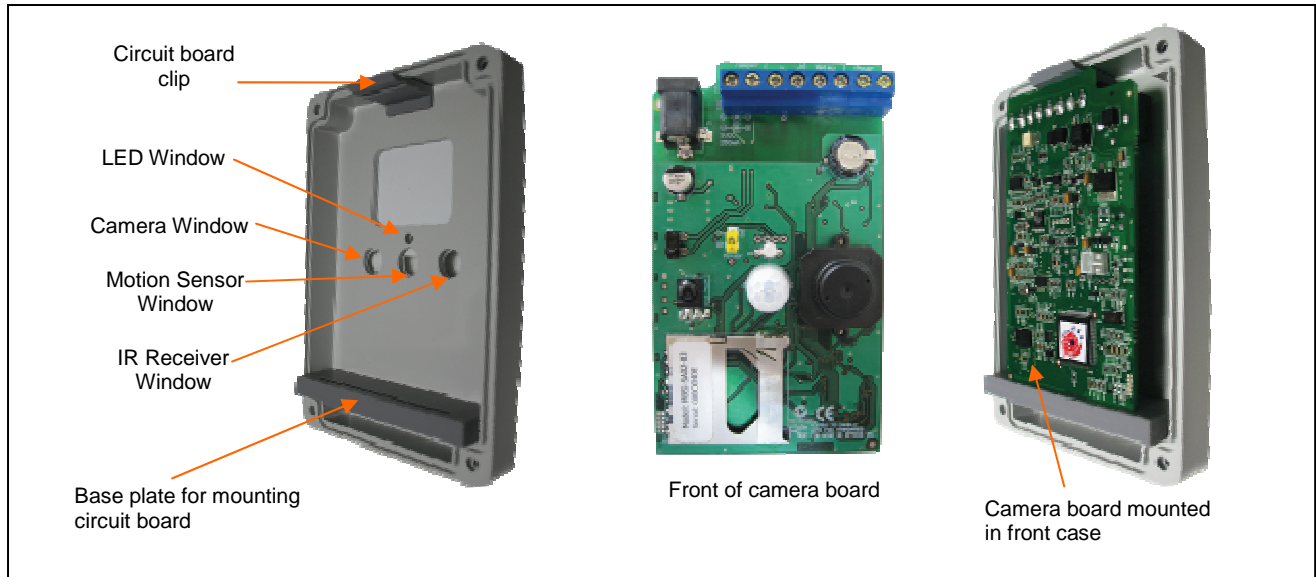

The unique polycarbonate sealing label on the front of the case has optically clear windows for the camera, infrared receiver and LED, as well as a special infrared transparent insert for the motion sensor. It is abrasion, chemical & solvent resistant and has a matt finish to reduce reflections so as to keep the case inconspicuous.

**FEATURES**

- **Rugged Polycarbonate case for harsh outdoor environments.**
- **Suitable for mines, farms, forests and beaches etc.**
- **IP65 rated and UV resistant.**
- **Easy replacement and removal of camera.**
- **Space for extra high capacity battery.**
- **Compact, lightweight and portable.**
- **Ideal for Sheds, Caravans, Boats, and remote surveillance applications.**

**SYSTEM DESCRIPTION**

**SPECIFICATIONS**

<b>Case Material</b>	Polycarbonate
<b>Label Material</b>	Matt printed Polycarbonate
<b>Case Rating</b>	IP 65
<b>Case Dimensions</b>	85 x 125 x 56 mm
<b>Case Weight</b>	174g
<b>Operating Temperature (with Camera)</b>	0°C to +50°C
